

Aggregates are one of the building blocks of our nation's infrastructure, composing 80 percent of concrete and 90 percent of asphalt. And in terms of building structures, about 400 tons of aggregate is used on the average home. The work of this industry can be seen all around us. And yet, most of us probably take for granted the contributions of this industry as we drive on roads, learn in schools, and even brush our teeth at night with toothpaste—all of which are created by aggregates in one form or another.

On the occasion of its 100th Anniversary, I want to recognize the efforts of the National Stone, Sand and Gravel Association and the many contributions its members make to our nation every day.

Mrs. CAPITO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. HEFLEY). The question is on the motion offered by the gentlewoman from West Virginia (Mrs. CAPITO) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 280.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mrs. CAPITO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 3118, H. Res. 394, and H. Con. Res. 280.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from West Virginia?

There was no objection.

The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate have directed the submission of a report from the Department of Defense, such report is to be submitted to both House and Senate Committees on Appropriations.

Army National Guard and Reserve Mobilization Facilities.—The conferees are concerned about the growing demand being placed upon mobilization facilities required to support Army National Guard and Reserve personnel. The conferees, therefore, direct the Chief of Staff of the Army to submit a report no later than April 15, 2004, which assesses the current status of Army National Guard and Reserve mobilization facilities and describes their adequacy to house, train, prepare, mobilize and demobilize soldiers. In particular the report should assess and make recommendations regarding mobilization centers' capacity to billet soldiers held for extended periods of time including for medical care and evaluation purposes. Likewise, the report should evaluate and make recommendations to improve the management of billeting resources that support mobilization.

Audit Trail Documents.—The conferees direct the Department to reinstate, beginning in March 2004, the semi-annual submission of audit trail documents as directed in House Report 99-275. These reports shall include line item detail on projects as budgeted in the Construction Annex and also include line item detail on projects funded under Minor Construction and Family Housing Improvements. The semi-annual reports shall include, but not be limited to, the following: (a) project amount (appropriation); (b) changes due to formal and below threshold reprogrammings; and (c) the current working estimate for each project. The audit trail documents shall reflect projects from fiscal year 2000 forward.

Barracks Privatization.—The conferees agree that the Department should implement without delay the recommendations in General Accounting Office (GAO) report "Military Housing: Opportunities That Should Be Explored to Improve Housing and Reduce Costs for Unmarried Junior Service members, GAO-03-602, June 10, 2003." One of the findings of the GAO report is that the Department of Defense (DoD) and the services had not fully explored barracks privatization to determine whether the concept could provide a better economic value to the government than the use of military con-

struction financing. As indicated in the FY 2003 Conference Report, the conferees continue to support the barracks privatization initiative and look forward to the Department of Navy report on lessons learned after implementation of three pilot projects (one in Norfolk, Virginia, and one each in San Diego and Camp Pendleton, California). The conferees continue to be concerned about the unknown consequences of commingling barracks privatization funds with family housing funds and the resulting integrity of the fiscal audit trail. Specifically, the conferees are concerned that the DoD and Congress must be able to clearly identify and track the financial advantages of privatizing unaccompanied barracks versus the traditional military construction approach. Merging the family housing and unaccompanied housing accounts cannot be endorsed by the conferees until further clarification of the project scope, debt structure, and impact on funding requirements can be presented.

Family Housing Operation and Maintenance: Financial Management.—The conferees agree to continue the restriction on the transfer of funds among subaccounts in the family housing operation and maintenance accounts. The limitation is ten percent to all primary accounts and subaccounts. Such transfers are to be reported to the appropriate Committees within thirty days of such action.

Family Housing Operation and Maintenance Reductions.—The conferees are concerned that the assumptions and methods underlying the budget request for family housing operation and maintenance accounts are not adequately explained by the service components. To better evaluate the efficacy of these estimates, and to more fully understand this account and its subaccounts, the conferees direct the GAO to conduct a study on the assumptions and methods utilized by each service component to develop their respective estimates, and to report to Congress no later than April 15, 2004.

Because of apparent miscalculations in estimating requirements, the conferees agree to reduce \$10,000,000 each from the Army and Air Force operation and maintenance accounts. In addition, the conferees agree to reduce \$17,700,000 from the Navy account, of which \$7,700,000 is from the management account. Unlike the other service components, the Navy failed to adequately account for the reduction in housing units due to the public/private venture initiative.

The conferees are extremely concerned about transfers between the various family housing operation and maintenance subaccounts. Therefore, in addition to the above GAO study, the conferees direct GAO to review the transfer of funds between these accounts, including amounts over and under the established threshold and to report to Congress no later than April 15, 2004.

Housing Privatization: Rescission of Funds and Notification Requirements of Reductions in Funding.—The conferees agree to rescind \$48,099,000 from Family Housing Construction accounts to reflect savings from projects where estimated equity contributions were unnecessary. Section 2853 of Title 10, United States Code, requires congressional notification of intent to cancel or reduce the scope of a previously approved military construction or family housing project by more than 25 percent. The conferees note this requirement applies to funds appropriated in the family housing improvement accounts for the purpose of privatizing military family housing. The Service Secretaries are, therefore, required to submit a 21-day prior notification of intent to cancel or reduce the amount previously appropriated for a specific housing privatization project by more than 25 percent. The notification shall include the amount of the reduction and the reasons therefor.

Clarification of Housing Privatization Reporting Requirements.—In accordance with current law, the Service Secretaries are required to submit a 30-day prior notification of each contract for the acquisition or construction of family housing units that the Secretary proposes to solicit under the housing privatization authorities and for each conveyance or lease proposed under Section 2878 of Title 10, United States Code.

Overseas Master Plans.—The conferees direct the Department to prepare comprehensive master plans for overseas military infrastructure and to submit the plans with the fiscal year 2006 budget submission instead of the fiscal year 2005 budget submission as proposed by the Senate. In addition, the conferees agree a report on the status of the

comprehensive plans and their implementation is to be submitted with each yearly military construction budget submission through fiscal year 2009 instead of fiscal year 2008 as proposed by the Senate. Master plans are valuable planning documents. Therefore, the conferees may extend this requirement to installations in the continental United States.

Perchlorate.—The conferees direct the Department to submit a report identifying the sources of perchlorate on Base Realignment and Closure (BRAC) properties and the plans to remediate perchlorate contamination on these sites no later than April 30, 2004, instead of March 30, 2004 as proposed by the Senate.

MILITARY CONSTRUCTION, ARMY

(INCLUDING RESCISSIONS)

The conference agreement appropriates \$1,448,239,000 for Military Construction, Army, instead of \$1,533,660,000 as proposed by the House and \$1,255,155,000 as proposed by the Senate. Within this amount, the conference agreement earmarks \$126,833,000 for study, planning, design, architect and engineer services, and host nation support instead of \$122,710,000 as proposed by the House and \$134,645,000 as proposed by the Senate. Alabama—Anniston Army Depot: Powertrain Maintenance Facility.—The conferees agree that within funds provided for planning and design in this account, \$1,000,000 shall be made available to design this facility instead of \$1,050,000 in minor construction funds to construct a general instruction building at Anniston Army Depot, Alabama as proposed by the House.

Korea—Camp Humphreys: Barracks.—The administration has informed Congress of its plans to move substantial numbers of United States forces in Korea to bases south of their present locations, with Camp Humphreys being the primary consolidation point for the shift of U.S. Army combat forces and for personnel currently stationed at Yongsan Garrison. To support this transformation, the May 1, 2003 budget amendment requested that \$212,000,000 in FY 2004 and prior year construction projects intended for other bases in Korea be moved to Camp Humphreys; extensive additional construction at the base is planned for future fiscal years.

However, according to U.S. Forces Korea officials, no master plan exists for construction at Camp Humphreys, and cost-sharing arrangements to fund the move of U.S. forces are still under negotiation between the governments of the United States and the Republic of Korea.

While the conferees support the Defense Department's overall plan for the relocation of U.S. forces in Korea and have provided funding in this appropriations bill for two projects at Camp Humphreys, they are concerned that planning for this significant undertaking is insufficiently developed at this time. Though planning may proceed, construction may not proceed on the two barracks at Camp Humphreys provided for in this Act until:

(1) A master facilities plan is developed for the entire Camp Humphreys installation which accommodates the anticipated relocation of U.S. forces to that facility, and

(2) Cost-sharing arrangements for the relocation of U.S. forces are agreed to by the

governments of the United States and the Republic of Korea.

Upon completion, the master facilities plan should be presented to the Military Construction Subcommittees.

MILITARY CONSTRUCTION, NAVY

Alaska—Eielson Air Force Base: Replace Working Dog Kennel.—The conferees agree that within funds provided for unspecified minor construction in this account, \$1,400,000

shall be made available to construct this facility instead of construction of a kennel at Elmendorf Air Force Base, Alaska as proposed by the Senate.

California—Vandenberg Air Force Base: Consolidated Fitness Center.—Although the conferees were unable to fund this project due to severe funding constraints, the conferees recognize the importance and necessity of this facility and strongly urge the Secretary of Defense to include the project in the President's fiscal year 2005 budget submission for the Air Force.

Wyoming—F.E. Warren Air Force Base: Stormwater Drainage System.—Although the conferees were unable to fund this project due to severe funding constraints, the conferees recognize the importance and necessity of this project and strongly urge the Secretary of Defense to include the project

The conference agreement appropriates \$773,471,000 for Military Construction, Defense-wide, instead of \$813,613,000 as proposed by the House and \$712,567,000 as proposed by the Senate. The conference agreement rescinds \$72,309,000 from funds previously provided to this account instead of \$32,680,000 as proposed by the House and Senate. Chemical Demilitarization.—As proposed by the House, the conferees include funding for the construction of chemical demilitarization facilities in the "Military Construction, Defense-wide" account. The budget request proposed consolidating the military construction component of the Chemical Demilitarization program in the "Chemical Agents Munitions Defense" account funded in the Defense Appropriations bill. In the future, the Department is directed to request military construction requirements for this program under the "Military Construction, Defense-wide" account.

Energy Conservation Investment Program: Renewable Energy Assessment.—The conferees direct the Department to submit a final report regarding an assessment of the regional potential of renewable energy generation, transmission, and distribution by industry on or near Department of Defense installations in the United States no later than November 30, 2004, instead of July 31, 2004 as proposed by the Senate.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The conference agreement appropriates \$311,592,000 for Military Construction, Army National Guard, instead of \$208,033,000 as proposed by the House and \$304,085,000 as proposed by the Senate.

Fort Leonard Wood is providing individual and certification training for Weapons of Mass Destruction Civil Support Teams and DOD Installation Emergency Responders. There are currently no dedicated facilities to provide this training. Training of Chemical, Biological, Radiological, and Nuclear Installation Support Teams, Rapid Response Teams, and Reconnaissance and Decontamination Teams for Civil Support has been directed. Construction of the facility is urgently needed to continue this critical homeland security training. The conferees, therefore, strongly urge the Army to advance this project in the fiscal year 2005 budget request.

Total		— 29,039,000	— 29,039,000	— 19,347,000

The House and Senate proposed rescinding \$9,692,000 from this account for funds no longer required for a housing privatization project at Patrick Air Force Base, Florida. The Department, however, transferred these funds to the Family Housing Improvement Fund (FHIF) before their authorization expired. The conference agreement, therefore, rescinds this amount from the FHIF.

FAMILY HOUSING OPERATION AND
MAINTENANCE, AIR FORCE

The conference agreement appropriates \$816,074,000 for Family Housing Operation and Maintenance, Air Force, instead of \$826,074,000 as proposed by the House and \$834,468,000 as proposed by the Senate.

BASE REALIGNMENT AND CLOSURE ACCOUNT

New York—Seneca Army Depot.—The conferees expect the Army to comply fully with

environmental remediation and building maintenance requirements as required under the BRAC process at Seneca Army Depot. The conferees direct the Army to provide a report to the Military Construction Subcommittees by March 15, 2004, detailing the current status of cleanup at Seneca Army Depot, and to include a schedule for conveying the property to the local economic development authority.

GENERAL PROVISIONS

The conference agreement includes general provisions (sections 101–122) that were not amended by either the House or Senate in their versions of the bill.

The conference agreement includes a provision, section 123, as proposed by the Senate, which requires the Secretary of Defense to notify Congressional Committees sixty days prior to issuing a solicitation for a contract with the private sector for military family housing. The House bill contained no similar provision.

The conference agreement includes a provision, renumbered section 124, as proposed by the House and the Senate, which provides transfer authority from the Base Realignment and Closure (BRAC) account to the Homeowners Assistance Program.

The conference agreement includes a provision, renumbered section 125, as proposed by the House, regarding funding for operation and maintenance of General and Flag Officer Quarters (GFOQs) to no more than \$35,000 per year without notification. The Senate bill contained a similar provision with additional language permitting the use of gift funds pursuant to 10 U.S.C. 2601 for the maintenance and repair of GFOQs.

The conference agreement includes a provision, renumbered section 126, as proposed by the House and the Senate, which limits

funds from being transferred from this appropriation measure to any department, agency, or instrumentality of the United States Government without authority from an appropriation Act.

The conference agreement includes a provision, section 127, as proposed by the Senate, which prohibits funds appropriated for the NSIP from being obligated or expended for the purpose of missile defense studies. The House bill contained no similar provision. The conferees are concerned about the increased use of NSIP funds to finance studies rather than construction projects. The conferees, therefore, direct the Department to submit written notification to the Military Construction Appropriations Subcommittees 21 days prior to obligating NSIP funds for any study.

The conference agreement includes a provision, section 128, as proposed by the Senate, which establishes a commission to review the overseas military force structure and to provide a report of its findings to the President and Congress no later than December 31, 2004.

Those general provisions not included in the conference agreement are as follows:

The conference agreement deletes the House provision requiring the Secretary of Defense to certify and report to Congress that the United States and the Republic of Korea have entered into an agreement on the availability of land before obligating or expending funds made available in the bill for construction projects at Camp Humphreys, Korea. The Senate bill contained no similar provision.

TRAFFICKING VICTIMS PROTECTION REAUTHORIZATION ACT OF 2003

Mr. SMITH of New Jersey. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2620) to authorize appropriations for fiscal years 2004 and 2005 for the Trafficking Victims Protection Act of 2000, and for other purposes, as amended.

The Clerk read as follows:

H.R. 2620

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Trafficking Victims Protection Reauthorization Act of 2003".

SEC. 2. FINDINGS.

Congress finds the following:

(1) Trafficking in persons continues to victimize countless men, women, and children in the United States and abroad.

(2) Since the enactment of the Trafficking Victims Protection Act of 2000 (division A of Public Law 106-386), the United States Government has made significant progress in investigating and prosecuting acts of trafficking and in responding to the needs of victims of trafficking in the United States and abroad.

(3) On the other hand, victims of trafficking have faced unintended obstacles in the process of securing needed assistance, including admission to the United States under section 101(a)(15)(T)(i) of the Immigration and Nationality Act.

(4) Additional research is needed to fully understand the phenomenon of trafficking in persons and to determine the most effective strategies for combating trafficking in persons.

(5) Corruption among foreign law enforcement authorities continues to undermine the efforts by governments to investigate, prosecute, and convict traffickers.

(6) International Law Enforcement Academies should be more fully utilized in the effort to train law enforcement authorities, prosecutors, and members of the judiciary to address trafficking in persons-related crimes.

SEC. 3. ENHANCING PREVENTION OF TRAFFICKING IN PERSONS.

(a) BORDER INTERDICTION, PUBLIC INFORMATION PROGRAMS, AND COMBATING INTERNATIONAL SEX TOURISM.—Section 106 of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7104) is amended—

(1) by redesignating subsection (c) as subsection (f);

(2) by inserting after subsection (b) the following new subsections:

“(c) BORDER INTERDICTION.—The President shall establish and carry out programs of border interdiction outside the United States. Such programs shall include providing grants to foreign nongovernmental organizations that provide for transit shelters operating at key border crossings and that help train survivors of trafficking in persons to educate and train border guards and officials, and other local law enforcement officials, to identify traffickers and victims of severe forms of trafficking, and the appropriate manner in which to treat such victims. Such programs shall also include, to the extent appropriate, monitoring by such survivors of trafficking in persons of the implementation of border interdiction programs, including helping in the identification of such victims to stop the cross-border transit of victims. The President shall ensure that any program established under this subsection provides the opportunity for any trafficking victim who is freed to return to his or her previous residence if the victim so chooses.

“(d) INTERNATIONAL MEDIA.—The President shall establish and carry out programs that support the production of television and radio programs, including documentaries, to inform vulnerable populations overseas of the dangers of trafficking, and to increase awareness of the public in countries of destination regarding the slave-like practices and other human rights abuses involved in trafficking, including fostering linkages between individuals working in the media in different countries to determine the best methods for informing such populations through such media.

“(e) COMBATING INTERNATIONAL SEX TOURISM.—

“(1) DEVELOPMENT AND DISSEMINATION OF MATERIALS.—The President, pursuant to such regulations as may be prescribed, shall ensure that materials are developed and disseminated to alert travelers that sex tourism (as described in subsections (b) through (f) of section 2423 of title 18, United States Code) is

illegal, will be prosecuted, and presents dangers to those involved. Such materials shall be disseminated to individuals traveling to foreign destinations where the President determines that sex tourism is significant.

“(2) MONITORING OF COMPLIANCE.—The President shall monitor compliance with the requirements of paragraph (1).

“(3) FEASIBILITY REPORT.—Not later than 180 days after the date of the enactment of the Trafficking Victims Protection Reauthorization Act of 2003, the President shall transmit to the Committee on International Relations of the House of Representatives and the Committee on Foreign Affairs of the Senate a report that describes the feasibility of such United States Government materials being disseminated through public-private partnerships to individuals traveling to foreign destinations.”; and

(3) in subsection (f) (as redesignated), by striking “initiatives described in subsections (a) and (b)” and inserting “initiatives and programs described in subsections (a) through (e)”.

(b) TERMINATION OF CERTAIN GRANTS, CONTRACTS AND COOPERATIVE AGREEMENTS.—Section 106 of such Act (as amended by subsection (a)) is further amended by adding at the end the following new subsection:

“(g) TERMINATION OF CERTAIN GRANTS, CONTRACTS AND COOPERATIVE AGREEMENTS.—

“(1) TERMINATION.—The President shall ensure that any grant, contract, or cooperative agreement provided or entered into by a Federal department or agency under which funds described in paragraph (2) are to be provided to a private entity, in whole or in part, shall include a condition that authorizes the department or agency to terminate the grant, contract, or cooperative agreement, without penalty, if the grantee or any subgrantee, or the contractor or any subcontractor (i) engages in severe forms of trafficking in persons or has procured a commercial sex act during the period of time that the grant, contract, or cooperative agreement is in effect, or (ii) uses forced labor in the performance of the grant, contract, or cooperative agreement.

“(2) ASSISTANCE DESCRIBED.—Funds referred to in paragraph (1) are funds made available to carry out any program, project, or activity abroad funded under major functional budget category 150 (relating to international affairs).”.

SEC. 4. ENHANCING PROTECTION FOR TRAFFICKING VICTIMS.

(a) AMENDMENTS TO TRAFFICKING VICTIMS PROTECTION ACT OF 2000.—

(1) COOPERATION BETWEEN FOREIGN GOVERNMENTS AND NONGOVERNMENTAL ORGANIZATIONS.—Section 107(a)(1)(B) of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7105(a)(1)(B)) is amended by adding at the end before the period the following: “, and by facilitating contact between relevant foreign government agencies and such nongovernmental organizations to facilitate cooperation between the foreign governments and such organizations”.

(2) ASSISTANCE FOR FAMILY MEMBERS OF VICTIMS OF TRAFFICKING IN UNITED STATES.—Section 107(b)(1) of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7105(b)(1)) is amended—

(A) in subparagraph (A), by inserting “, or an alien classified as a nonimmigrant under section 101(a)(15)(T)(ii),” after “in persons”; and

(B) in subparagraph (B)—

(i) by inserting “and aliens classified as a nonimmigrant under section 101(a)(15)(T)(ii),” after “United States,”; and
